Grade	5.00 out of 5.00 (100%)

Question **1**

Correct

1.00 points out of 1.00

If there is no label, the operation field starts in column 1

Select one:

- ☐ True
- ☒ False ✓

Correct!

The operation field starts one or more blanks after the label. If there is no label, the operation can start anywhere from column 2.

It cannot start in column 1, because that would make it a label, not an operation.

The correct answer is 'False'.

Question **2**

Correct

1.00 points out of 1.00

Next

An Assembler statement can have more than one continuation statements

Select one:

- ☒ True ✓
- ☐ False

Correct!

Here is an example of more than one continuation statement:

Continued statements

Column: 1	10	16	72	80
Label	Operation	Operands...	x	
		Continued statement	x	
		Another continued statement		

The correct answer is 'True'.

Question **3**

Correct

1.00 points out of 1.00

Back

Next

Operands are optional in Assembler statements

Select one:

- ☒ True ✓
- ☐ False

Correct!

Although most statement will contain operands, operands are optional.

The correct answer is 'True'.

Question **4**

Correct

1.00 points out of 1.00

The only required field in Assembler statements which are not comments is the operation

Select one:

- ☒ True ✓
- ☐ False

Correct!

In statements which are not comments, **all fields except operation** (label, operands, comments, continuation) **are optional**. Operation is mandatory.

The correct answer is 'True'.

Question **5**

Correct

1.00 points out of 1.00

[Back](#)[Next](#)

Labels can have numbers, but not as their first character

Select one:

- ☒ True ✓
- ☐ False

Correct!

Labels can start with an **alphabetic character**, "\$", "_", "#", or "@".

Labels can contain numbers, but not as their first character.

The correct answer is 'True'.
