Grade	2.00 out of 5.00 (40%)

Question 1

Incorrect

0.00 points out of 1.00

If there is no label, the operation field starts in column 1

Select one:

- ☒ True ✘
- ☐ False

The operation field starts one or more blanks after the label. If there is no label, the operation can start anywhere from column 2.

It cannot start in column 1, because that would make it a label, not an operation.

The correct answer is 'False'.

Question **2**

Correct

1.00 points out of 1.00

[Back](#)[Next](#)

When there are two or more operands, they are separated by semicolon (“;”)

Select one:

- ☐ True
- ☒ False ✓

Correct!

Operands are separated by comma, not semicolon.

The correct answer is 'False'.

Question **3**

Incorrect

0.00 points out of 1.00

To continue a statement in the following line:

Select one:

- ☒ A. Column 72 must contain “-” ✕
- ☐ B. Column 72 must contain any non-blank character
- ☐ C. Column 72 must contain “/”
- ☐ D. Columns 73, 74, and 75 must contain ‘...’
- ☐ E. Column 81 must contain any non-blank character

Any non-blank character on column 72 indicates continuation.

The correct answer is: Column 72 must contain any non-blank character

Question **4**

Correct

1.00 points out of 1.00

[Back](#)[Next](#)

The only required field in Assembler statements which are not comments is the operation

Select one:

- ☒ True ✓
- ☐ False

Correct!

In statements which are not comments, **all fields except operation** (label, operands, comments, continuation) **are optional**. Operation is mandatory.

The correct answer is 'True'.

Question **5**

Incorrect

0.00 points out of 1.00

Operands are optional in Assembler statements

Select one:

- ☐ True
- ☒ False ✕

Although most statement will contain operands, operands are optional.

The correct answer is 'True'.
